

week-7-lesson-2

example-1 (task-3 from lesson-2)

Use a struct for a book from task-2 to declare an array of structs and fill other array elements. Declare a struct for a course. Use the book array as a resource field of the struct course.

example-2 (task-4 from lesson-2)

Prepare data for this lesson (Thursday) in structure and print it out. Include section, main resources: web-site and book, lecture room, schedule, length of the lesson.
